301.78	8.25 cm	3.4 kg
301.77	10 cm	3.8 kg
Telescoping Sand Auger Kits		
301.90	8.25 cm	3.6 kg
Replacement Parts & Accessories available		

Our telescoping auger systems extends to 2.4 m! These auger setups are 1.65 m long when not extended. They are designed for easy transport and storage, and they come with a rubber-gripped handle, outer extension, inner extension, auger head – regular, mud, or sand – and three snap pins. The snap-pins are used to lock the cross handle, extensions, and auger head together. To enhance the performance of this auger, an optional 45.7 cm ratcheting cross handle is available. Various additional auger heads may be ordered separately. The augers included in these kits have carbon steel bails, stainless steel cylinders and high-carbon steel bits with tungsten carbide hard-surfacing. The handles and extensions are made of chromoly.
