

Silicone & Polyethylene Tubing

Silicone and Polyethylene tubing is available in many diameters and lengths to fit all types of pump.

Range of tubing for sampling equipment

Advantages

- All tubing is hallmarked
- All tubing carries QA plus stamp.

Specifications

- LDPE tubing sizes: 2 x 4mm; 4 x 6mm; 6 x 8mm; 8 x 10mm; 10 x 12mm; 12 x 16mm & 16 x 20mm
- HDPE tubing sizes: 12 x 16mm & 16 x 20mm
- Silicone tubing sizes: 4 x 8mm & 6 x 10mm
- Teflon tubing sizes: 2 x 4mm; 8 x 10mm & 10 x 12mm
- Teflon tubing MP-1 pump: 13 x 18mm
- Various roll lengths
- All tubing can be used for: Trace metal analysis; Hydro-carbons analysis; Volatiles analysis & Macro-parameters analysis
- All tubing resists pure hydro-carbons
- All tubing resists heat < 70°C, Silicon tubing < 120°C: and Teflon < 200°C.
