Aqua4Plus 2.0 Software

What is theAqua4Plus 2.0 Software?
New and Improved software for Seametrics Smart Sensors.

Which sensors does it work with?
All LevelSCOUT, BaroSCOUT, PT2X and CT2X sensors.

What are the new features of the updated software?
A new streamlined interface, faster drive, automatic sensor detection, improved reporting displays and a real-time graphing function.

What are the system requirements for Aqua4Plus 2.0?
Windows 7, Windows 8, Windows 8.1, Windows 10 or later
Screen capable of at least 1366 x 768 resolution
2 GHz dual core processor with SSE2 support 2 GB RAM (system memory)
2 GB of hard-drive space

Can I install Aqua4Plus 2.0 on a PC already running older Aqua4Plus software?
Yes! When installing 2.0 just make sure to select a new installation directory, anything other than the default \Aqua4Plus in the installer. You can run multiple versions as long as they're installed in separate directories, much like previous versions of Aqua4Plus.

Do I need to install any new USB/RS485 drivers to use Aqua4Plus 2.0?
If you are already using an older version of Aqua4Plus with your USB/RS485 cable there is no need to install a new driver. If you are installing Aqua4Plus 2.0 on a PC that's never been used with Seametrics Smart Sensors simply make sure you are connected to the internet when you first plug in the USB/RS485 cable and it will automatically install the needed drivers.

Can I use my existing sensors with Aqua4Plus 2.0?
Yes! Aqua4Plus 2.0 is compatible with all current PT2X, CT2X, and LevelSCOUT firmware versions, back to August 2015.

If I have sensors with older firmware that's not compatible, can they be upgraded?
Please contact us for firmware options. Many existing units can be upgraded in the field.

If I have other Seametrics Smart Sensors will they be added to the Aqua4Plus 2.0?
Yes! Aqua4Plus 2.0 will be adding the remaining Seametrics Smart Sensor models in the next update.

How will I update Aqua4Plus 2.0?
Aqua4Plus 2.0 has been set up for automatic updates so as long as you have internet access you will always have the latest version ready to go on your PC. It is also available for download at https://www.vanwalt.com/equipment/levelscout/

What's different about Aqua4Plus 2.0 from older versions?
Aqua4Plus 2.0 is brand new. It features an easier to use interface and a new communication driver to allow for automatic sensor detection. It also features a new Reports section to manage and view logged data from within Aqua4Plus and Real-time live graphing.
